

Asks FDR To Free 5 Who Protested Army Jii

OPEN LETTER TO PRES. ROOSEVELT

Dear President Roosevelt:

The case of the five Negro soldiers, sentenced to 15 and 13 years on mutiny charges and whose sentences have since been slightly modified, is one of the blackest crimes ever committed against the concept of democracy and the colored people of this country.

As President of this nation and Commander-in-Chief of its armed forces, you cannot blink the patent injustice that has been done these young men. To allow the sentence given them to stand is to give your tacit approval to a double standard of treatment and justice for colored soldiers.

It is to make them victims of official doublecross—a result which follows almost inevitably from the double standard of treatment, prevalent in the armed forces.

The Facts of the Case
Responsible investigation reveals that the five soldiers—Arthur Boyd, Summit, N. J.; James B. Crowley, Brooklyn; William J. Flemmons, Washington; Leo M. Jones, Philadelphia, and Joseph R. Kent, Evanston, Ill.—are guilty of nothing more than resenting brutal discrimination against their persons while in the service of an army which

is committed, by statute, to according them treatment without discrimination.

What are the established facts in the case?

The men had been put in the guardhouse at Dale Mabry Field, Tallahassee, Fla., on minor charges after each had encountered trouble over protesting treatment handed him and other colored soldiers.

On last March 23 the five men refused to leave the guardhouse for latrine detail, demanding to see the commanding officer. They told a guardhouse corporal of the discrimination practiced against them in the matter of food and cigarettes. They told of their meals, from soup to desert, being dumped together on one plate while white prisoners had their food served on two. They told of being deprived of cigarettes for several weeks while white prisoners got theirs.

Tear Gas for Justice

For an answer, these five boys were treated to several tear gas bombs tossed into their lock-up by a non-commissioned officer. At the court martial, they were charged with inciting to mutiny and not attempting to curb mutiny.

Sir, we ask you, is this what we are fighting to uphold? Is it for this millions of our young men and women are

fighting and dying on far-flung battlefronts? Is this the fulfillment of the promise of American life?

How much humiliation and indignity and official brutality must the colored soldiers suffer for the privilege of wearing the U. S. Army uniform? How much jobian patience must they show under a studied and infinitely refined cruelty?

Is there no breaking point for them? Are they not human; are they not of the American soil, too; do they not draw their strength and aspirations from the common American earth and ideal; and are they not to be expected to want to be treated as Americans, too?

Mutiny? Indeed!

If this be mutiny, make the most of it.

Not for These Alone

Yet, Mr. President, it is not for these five colored boys alone that we plead. We plead for the millions of Americans, of all colors and racial origins, who are made to suffer, whether they know it or not, by this example of cruel injustice, a loss of moral stature, of essential manhood. For such a loss begins a fracture in the foundation of our community life which, from individual to individual, group to group, oppressed to oppressor, accomplishes a degradation

of spirit, moral and a nation.

This country, Mr. I tolerate longer the travesties in the case of these five boys, blame about as much of Hitler has of resurrecting to be put to death.

The modified sentence would be laughable were they insult these boys an affecting to be magnanimous with mercy.

Loose Them, Mr.

Loose the boys and let them go back to soldiering as men and fight under a just and great cause.

Mr. President, we believe we know what have done in a case of this kind, and the principle at stake.

We somehow believe you will see Mr. Lincoln.

'Mutiny' Sentences Of Soldiers Eased

PHILADELPHIA — Modification of sentence for five northern Negro soldiers, formerly stationed at Dale Mabry Field, Fla., and now in the Tallahassee Federal Correction Institution for "joining a mutiny, failure to suppress a mutiny and assault on a non-commissioned officer," was disclosed today by David Levinson, civil liberties lawyer and counsel for the five men.

The soldiers, Leo M. Jones, 25, Philadelphia; William J. Flemmons, 23, Washington; James E. Crowley, 21, Brooklyn; Arthur Boyd, 28, Summit, N. J. and Joseph R. Kent, 21, Evanston, Ill., were sentenced in May, 1944, to 15 and 13 years each and the three others to 10 years each. Mr. Levinson said that following the sentencing of the men he filed a petition for a review of the case with Maj. Gen. Westside T. Larson, commander of the Third Air Force, Tampa, Fla., and that military authorities are now considering the case.

92nd Comes Through Test

By MARC MORELAND
Well, the men of the 92nd Infantry Division appear to be doing a bit of all right by themselves and their country, with reports coming here of their heroism under fire.

Lieut. Gen. Mark Clark himself has visited one wounded soldier of the 92nd to commend him personally for his rare great courage in battle. Stories and pictures published here at home show the 92nd in fighting array, charging enemy lines and carrying on in the tradition of fighting black Americans enriched by the blood of Crispus Attucks, Black Samson of Brandywine, the fierce 8th and 10th cavalries, the men of the 8th Illinois and the Rainbow Division.

And now in this week, wherever colored Americans are given the chance to do battle they do it well—whether as fighter pilots.

Mug Man In Tavern, 2 Caught In Chase

NEWARK — Willie Jackson of 212 Pearl street, Brooklyn, N. Y. and Fred Smith of 270 Prince street, Newark, wound up under \$1000 bail after attempting to mug and rob Raymond Gitter of 333 Norfolk street after the latter had displayed his money when he showed him a drink at Willie's Round Bar at 15th avenue and Bedford street last week.

Special officer Lawrence Morrison, who was on duty at the establishment, expressed the doubt that they had had an attempt to get away.

Gitter, just recently arrived from the south, went into the bar and became engaged in conversation with the two men and purchased a couple of drinks for them. He said to have handled two ten dollar bills in the transaction, receiving the change from the drinks which amounted to \$18 and a few cents. He then went to the rest room with the two men following him.

Herald News Explains Its Position On The Proposed New Constitution

Newark Sunday Call Asked To Look To Facts Of Situation And Not To Political Maneuvers

NEWARK — Hundreds of congratulations have come to the Herald News on the radio address on the proposed revised draft of the New Jersey Constitution delivered for this paper by Dr. Marc Moreland, managing editor, at Trenton, the night of September 1, and carried over a network of south Jersey stations.

An indication that the Herald News did not speak for itself alone in opposing the revised draft of the constitution is found in the large number of persons who have written or revisited ignored the proper

claims of alert Negro citizens to having specified provisions inserted in the revised document similar to those of Article I, paragraph 11 of the revised New York constitution, approved by the people of that state in 1938.

These provisions forbade discrimination against citizens because of race, color or creed by firms, corporations, individuals, agencies or subdivisions of the state. In view of the widespread discrimination against persons of color in this state by firms, corporations, agencies and subdivisions of

unregarded both the findings and a proposal" of the State Committee on Discrimination in Employment. Rather, that take action on the proposals, the PAC chairman asserted. Dewey secured adoption by the state legislature of a bill providing that "there should be another committee to study the findings of the previous committee."

Hillman pointed out that the States' Rights doctrine endorsed by Dewey and the GOP would place the future of Southern Negroes in the hands of state legislatures "in which no Negro may sit and for the election of which no Negro can vote."

States' Rights Man
States' Rights, he said, is the one issue on which Dewey has taken a clear stand. He said the Governor had made it "absolutely clear" that he favors the curtailment of the use of Federal power and that he believes that health, education, living standards and working conditions are primarily a concern of state and local governments.

No Soldier Vote
Asserting that Dewey has "stubbornly refused" to allow 800,000 New York citizens in the armed forces or the Merchant Marine the same facilities for voting as neighboring states, the PAC chairman said that Dewey had taken his stand because "he fears the people's vote—because he knows that only if the people fail to vote can he realize his ambition to occupy the White House."

Health and Medical Care
Hillman also attacked the Dewey record on health insurance and medical care and the Dewey farm policy, which he said hampers the control and rationing while failing to assist or protect the small farmer and farm worker.

He said "the United States must have a 'progressive' Government—a Government

Southerners Call FEPC "Impossible" At American Federation Of Teachers Meeting

WASHINGTON—A resolution advocating a permanent FEPC, presented by the Washington Teachers' Union, Local 27, caused a storm in the twenty-eighth convention of the American Federation of Teachers at LaSalle Hotel, Cleveland, Ohio last week, when southern delegates called FEPC practices "impossible" for the South.

Mrs. Mary Mason Jones, president of the local, defended the resolution on the grounds that even above the right of organized labor to select its own members is the human right of every citizen to work.

The resolution was recommended for adoption by the committee on cultural minorities of which Miss Layle Lane, secretary union teacher of New York was chairman.

Local delegates were: Miss Selma M. Borchardt, legislative representative of the federation; Jones, president; Mrs. William C. Hicks, treasurer; Mrs. Maude G. Straton, chairman of building representatives; Mrs. Margaret A. Browning, Brynne Junior High, and Paul Cooke, Phelps Vocational School.

Mr. Cooke was accompanied by Mrs. Rosemary Cooke, his wife, Miss Linnie R. Smith, union secretary and president of the Washington Howard Alumni, was a visitor.

Other resolutions offered by the Washington local included those favoring the distribution in the post-war era of government-owned lands, preservation of women's pay standards, and integrated military units.

Only 20 Negroes Present
The federation is as yet "wide open" to Negro membership, but despite the many advantages and the cultural need for labor education and labor friendships, there were less than twenty colored persons present.

Members of the race served on a convention committee. Mr. Cooke presented the outstanding achievements of the local during 1943-44, during a convention panel. Mrs. Browning was a leader in a labor clinic on teacher load.

A high spot of the convention was the presentation to Miss Borchardt at the conclusion of her legislative report, of flowers in appreciation of her efforts for the general welfare of teachers. The flowers were presented by Mrs. Straton.

Joseph Landis of Cleveland, president of the federation, spoke in highest terms of the appreciation.

Announce Changes In Rent Regulation

NEWARK—Changes in rent regulations announced today by the Office of Price Administration will liberalize provisions governing landlords' petitions for rent increases to cover certain types of improvements in housing accommodations; make provisions for landlords to ask for rent increases, under certain conditions, when the tenant is an employee of the landlord and affect the section of the rent regulations dealing with first rentals after the effective date of rent control.

The new amendments effective September 13, 1944, provide that and landlord may file a petition to increase the maximum rent on the ground that:

1. There was, on or prior to the maximum rent date, a substantial increase in the services, furniture, furnishings, or equipment, and
2. The rent on the maximum rent date was fixed by a lease or other rental agreement—that was in force at the time the increase in services, furniture, furnishings, or equipment.

Previously an adjustment of this kind was limited to cases where there were substantial changes in the housing accommodations by a major capital improvement, such as remodeling.

Osgood Case Goes Before Grand Jury, Week of Sept. 18

NEWARK—The case of the State against Edna Osgood, who calmly walked into the Newark 2d pre-trial police station on the morning of July 29th and declared that she had just "shot her husband", the late William Osgood, will in all likelihood be presented before the Grand Jury during the week of September 18th, according to the office of Essex County Prosecutor Wachenfeld.

The final stages of the testimony is at present under way for the stage is being set for what promises to be one of the most sensational murder trials ever to be held in the court house. "The slaying of the wealthy Orange street laundress, has caused unusual widespread interest due to the many dramatic developments which have taken place.

Following the decision of the Grand Jury, which will most likely hand down an indictment against the woman charged with the murder, the case should come before a jury within a few weeks. Key witnesses for the State will be Mrs. Dorothy McDuffie, the friend of the slayer and housekeeper of the Osgood quarters and who also was a choir leader at the Orange Union Baptist Church.

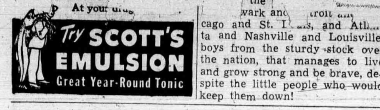

The severe grilling of Mrs. McDuffie, during the course of the investigation brought about the many facts with which the state felt certain of weaving the first degree murder charge against Mrs. Osgood. It was the choir leader's talking which unfolded several key names. It was revealed that voices were heard following the shooting, footsteps other than Edna Osgood's were heard coming down the steps.

Facts withheld are: Was Bill Osgood asleep when he was shot through the temple? This fact will be one of the key points in the defense. According to her confession, she had to grapple with her husband, in defense of her own life.

New Constitution

(Continued from Page 1)

the state, the Herald News did not, and does not now, consider that it is asking too much to have similar provisions included in the revised draft of the New Jersey constitution.

Said Dr. Moreland, speaking for the Herald News, "Colored people oppose the constitution because of the failure to recognize (their) major problems, in public service opportunities, in the enjoyment without legal prejudice of first-class citizenship."

"The revisionists apparently take the view that, inasmuch as we have a federal Bill of Rights, there is no particular need to bother with a well-defined state Bill of Rights."

"Look about you here in New Jersey and see the absurdity of this attitude. If you are concerned with human rights, you will have no trouble in seeing how this attitude spells itself out in terms of Jim Crow, segregation, and daily humiliation."

Dr. Moreland summed up the basic feeling of the Herald News, and it appears, of many colored citizens, judging by the comments since made, when he said: "Colored citizens oppose the revised draft because it is 'old hat'—a stogy, undynamic, reactionary in its conception, reactionary in its omissions; a partisan piece of paper brought forth as the greatest document of the day."

The Herald News is of the opinion—an opinion backed by some of the most alert and public-spirited people in the state—that it requires more than a mere change of the CIO and the organized women of the state and the New Jersey State are under attack domination to justify the failure of the revisionists at Trenton.

All these groups want a new constitution; but they want a constitution that is really new, in the sense of democratic government. They are not being taken in by a promise of the nature and function of the constitution, which is primarily concerned with embarrassing Frank Hague.

The Newark Sunday Call (see comment on editorial page) is of the opinion of the Herald News, would be well-advised, in view of its generally liberal attitude, to look to the facts of the situation, and not so much to political maneuvers, in assessing the value of the case against the proposed revised draft of the constitution.

VAUX HALL—Convent Cuttino, victim of a shooting at his Springfield Bar and Grill last week, continues to improve at the St. Elizabeth Hospital in Elizabeth where he was taken suffering with wounds of the arm, and chest.

Charles Bonds, of 223 Springfield Ave. alleged to have fired the shot after Cuttino had asked him to leave so that he could close, is being held in the Union County jail awaiting the decision of the Grand Jury.

It was learned this week that the arrest of the gunman was made by Union's only colored police officer, Thomas I. Howe, of 79 Smith Street, Vaux Hall.

According to reports, Howe was taking the tavern just as Bonds had fired the shot and was making a dash for his car. He was said to be patrolling alone in a police car at the time. Informed by a news writer who happened to be on the scene that the fleeing man had shot Cuttino, Howe reportedly went after the man as he entered his car.

Bonds is then said to have attempted to aim the gun at Howe, but passed it to his wife who was seated in the car. Howe arrested him, with officer Schmitt responding.

thorities modified Kent's sentence to nine years and those of Crawley and Boyd to five. No modification was granted in the case of Jones and Fleming, however.

Following the modification of sentence for three of the men, Mr. Levinson said he again filed a petition for a review of the case, this time with the Secretary of War, who later designated the judge advocate general of the Army, Major Gen. Myron C. Cramer, to consider the matter.

Today Mr. Levinson made public a telegram he received from General Larson, which said: "Sentence as to Jones and Fleming, reduced from fifteen years each to five years each. As to Kent, reduced from thirteen to three years. As to Crawley and Boyd, reduced from thirteen to two years."

'Courtiers' Dance

Slated For Success

NEWARK—The Courtiers have been greatly surprised at the instant response of the New Jersey dance world to their forthcoming event, September Serenade, Friday evening, September 22nd.

It seemed that a spark of anticipation has spread rapidly from one to another throughout the local area and plans and reservations are brewing fast. Could it be true that the fun loving friends wish to do away with the evening, September 22nd? That is to speak in regretful manner and tone of the cancelled dance at the Four Towers, Cedar Grove.

At any rate, looking to the future as the sure measure for happiness at all times, it is definite to all who concern themselves with the evening of September 22nd at the New Graham Auditorium, 188 Belmont avenue, Newark, they will have a superb evening.

Speaking of evenings, this is the ideal weather for being out and about with thoughts of meeting up with old friends. Socializing is to fever the air.

Young lady, does an old TABOO prevent your knowing this help?

In less enlightened days, women didn't discuss these things. Now, it's different. If a woman suffers from periodic cramp-like pain and other purely functional distresses, she tries to learn how to help herself.

Thousands of women praise the 2-way help of CARDUI. Taken as a tonic, it usually peps up the appetite, stimulates the flow of gastric juices, thus aiding digestion and thereby helping build up energy and resistance. Started three days before the time, and taken as directed, it should help relieve much purely functional, periodic pain.

Try CARDUI. A 62-year record says it may help!

IT'S WIN THE WAR AND GIVE OUR YOUNG PEOPLE A WORLD WORTH THEIR BLOOD!

World War II

This present war, one feels, has been a tremendous educative force in the lives of the participants.

The conditions out of which it came, the direction it has taken, the issues it has sharpened—all this has made its impact on the most enlightened generation of warriors the world has seen, with what the requirements in intelligence and training of modern men of war.

And no matter how dopey the average politician may think our young men and women are today, they are, we suspect, wiser than their maligned, their slanderers.

More than Molly, Me and Baby

We wager that they want something more than hot dogs at Coney Island, the drugstore on the corner, their favorite radio program, or "Just Molly and Me and Baby Makes Three."

They want jobs and security and decency and civility. They want a world worth their toil and tears and blood. They want this, no matter what bought newspapers say to the contrary, no matter what the hired spokesmen of the old and dying order tell them in honied words uttered in hackneyed accents.

They will want this because their very souls, after so much pain and suffering, so much agony and death, will cry out for a new and better order of life—an order of life which is not at war with itself, and so does not need young men to kill each other off at tragic intervals!

The Young of Many Lands

And the young American men and women, who want this, will have it. They will have it because the ends of young people throughout the world are determined this time really to have what T. E. Lawrence's young men wanted: a new heaven and a new earth!

England, France, Russia, Italy, Belgium, Africa, Holland, India, Yugoslavia, Czechoslovakia, China, Greece, the embattled people of Spain—all these and more offer their combined strength to the truly young in heart, and to those who have not suffered merely to see the world remade in the image of the oldsters who brought them to such woe and waste.

JERSEY'S RETURNING YOUNG WARORS

It is positively absurd for the American people to think that the young men and women who have participated so intimately in the agony of the present world revolution, will come back the same.

War is truly, in Lenin's phrase, the locomotive of history, and much ground has been covered in the last five years of this all-out contest with death.

While it is true generally that men go into wars with what they bring from civil life, they do not always leave wars with what they want. War is more than hell, as General Sherman doubtless knew: it is a great transformer.

It is pathetic therefore to hear Gov. Edge and men of like mind giving out with some of the oldest drivel over the radio and in the press about "radicals" and Communists and New Dealers as racketeers.

The Governor makes with the name-calling, apparently because he knows that he and his kind cannot meet the progressive forces of this country on the level of logic, or in the area of ideas.

About jobs for returning soldiery, about new directions in education, about an improved basis for relations between minorities, about plans to make "free enterprise" work and pay.

He says nothing.

He apparently wants his crowd to have political power, without working as to how to use this power for the common good.

For certainly anyone who questions the validity of the basic ideas and achievements of the New Deal at this late date is incorrigible—unfit for public trust.

Hasn't it occurred to men like Gov. Edge that the young men and women doing our fighting and dying came to adulthood through the very depression that "free enterprise" and the Hoover-Dewey-Edge ideas created?

WHAT HAVE THESE DONE? AND EDGE?

Gov. Edge has made quite a fuss about the evil work of the CIO, Sidney Hillman and his Political Action Committee and Mayor Frank Hague.

In Al Smith's phrase, let's look at the record.

Virtually every significant advance made by organized labor in recent years has been made under the leadership of, or by force of the example of, the CIO. This is true whether in better working conditions for labor as a whole, or in better relations between white and colored workers. Mr. Hillman and the PAC have done more than all other groups combined to make labor conscious of its political duties and power, as a huge but poorly organized factor, in American life. Mr. Edge apparently thinks it all right for manufacturers and industrialists to be highly organized for political action, but that it is something awful for millions of workers to do likewise.

He seems to be suggesting that there is something basically un-American for workers to organize for political action, as if labor is, at best, only tolerated by the privileged few—the rich and the well-to-do!

Whatever may be the sine of Frank Hague, he is on the record of his accomplishments, an advanced humanitarian

TWELVE YEARS OF PROGRESS

UNIONS—The Wagner Act guaranteed collective bargaining. Through NLRB and VLB, equal pay for equal work was established. This enabled Negroes to secure more adequate food, clothing and recreation.

JOBS—Roosevelt job-bills replaced Hoover breed lines. The Fair Employment Practices Committee was established to end discrimination in employment. Now 1,500,000 Negroes work in war plants.

SECURITY—The Social Security Act provided old-age benefits, health and unemployment insurance. The administration supports the Wagner-Murray-Dingell Bill, broadening social security.

FARMS—New Deal agencies, such as Farm Credit and Farm Security helped the small farmer, including more than 175,000 Negroes. Special help was extended to farm workers to become farm owners.

BUSINESS—Under Roosevelt, business recovered from the Depression. Negro-owned small businesses sprang up by the thousands. Between 1933 and 1939 alone, Negro-owned retail stores increased 30%.

HEALTH—Through New Deal agencies, Negroes have received better medical care. The Negro death rate dropped from 16.5, per thousand in 1930 to 13.9 per thousand in 1940.

HOMES—Negroes occupy more than one-third of the government-built, low-rent housing projects constructed since 1932. HOLC and FHA helped people to buy their own homes.

EDUCATION—The NYA trained youths for jobs. The government built countless schools and made grants to Negro colleges. Negro enrollment in high schools went up 126% between 1930 and 1940.

We Regret, Judge Hastie

Judge William Hastie's carping letter to CIO's Political Action Committee seems to me untimely, and as PAC's record will show unwarranted. Whatever the Judge's intention, his act serves only the Republican Party's campaign to send Dewey to the White House this fall. The pro-Dewey press is already making effective use of it.

No honest man denies the glaring omissions in the Democratic platform. No honest man justifies the administration's failures which as the Judge stated.

At the same time, with problems of postwar employment imminent, it is foolhardy to forget that in 1928 Herbert Hoover—Republican—of the bonus marchers—unemployed ex-servicemen, Negro and white, of the previous war—with tear gas bombs. In 1928 Franklin D. Roosevelt con-

ceded to an order creating FEPC.

The point is—and don't forget it—the present administration is responsive to pressure. Our job is at press—and we can press harder not standing alone but working with groups pressing in our direction. Up to now the CIO is the most powerful group in America pressing our way. Our major gains have been wrung—pressed—the Roosevelt-Admiral

What good is the right to vote if it isn't exercised? People long used to a part in voting and government find it easier to stay at home as usual, instead of taking the trips involved in registering and voting.

Instead of getting impatient and saying "let 'em be if they want to be slaves," the Editor and Informer Staff were out ringing doorbells and reminding 'em out for registration. Even the Northern dailies reported the remarkable Negro registration gotten out.

But there are still thousands of Negroes who have not registered. The Editor and Informer Staff were out ringing doorbells and reminding 'em out for registration. Even the Northern dailies reported the remarkable Negro registration gotten out.

What can be said of Walter Edge? First, that he is an important citizen of Atlantic County, one of the most Jim Crow ridden counties in the state; that he was governor of New Jersey once before; that he is a former U. S. Ambassador to France; that he is the man who engineered the proposed revised draft of the constitution which does not even deign to touch the whole area of personal and economic relations after the passing of a hundred years.

The rumor is doubtless without foundation, but it is often heard that Gov. Edge insists that there are no colored people and special problems in New Jersey, and that all talk about dealing with their special difficulties is just a malicious attempt to upset him.

GENERAL BOWERS OF NEW JERSEY

Adjutant General James I. Bowers, highest ranking official in the State Military Department, next to the Governor, has said that New Jersey simply cannot afford to have colored members of the State Guard due to the lack of funds necessary to set up separate units!

Bowers said moreover, that the New Jersey "tables of organization" made no provision for Negro units.

If we are to believe Gov. Edge and other protagonists for the view that the laws of New Jersey are meant to apply to all citizens alike, and therefore nothing is needed in the revised draft of the constitution specifically forbidding discrimination, why is the Adjutant General fussing and fuming over separate Negro units?

Why aren't colored men taken into the existing units, since in Jersey all men are equal before law and under the same obligation to serve the military arm?

Whom do the Governor and the Adjutant General think they are kidding?

We repeat, it is this conception of democracy and of its military arm that makes the thousands of New Jersey boys now on the fighting fronts so glad to work, fight, give, make democracy live," as Mr. Drew Pearson so loudly reminds every Sunday night at 7.

Wouldn't Work

(Editorial from Sunday Call)

Of the goodness of Mrs. Roosevelt's heart and the depth of her sympathy for the poor and the distressed there can be no doubt. Unfortunately, like so many others of generous impulse, her thinking is mostly hazy.

For example, her letter denying she advocated social equality between whites and Negroes. She suggests that one of the solutions of the Negro problem might "be to move the Negroes into places where there are only a few and thus prevent the lack of balance" which exists in many communities in the South.

Concentration of many immigrants in congested Eastern cities has retarded their assimilation and has created unwholesome tension between them and the older racial stocks. It would have been better had immigration authorities during the last century arranged an orderly distribution of these newcomers throughout the United States. This was not done. Now it cannot be done.

There are too many political, economic and legal obstacles. These stand in the way also of redistribution of Negro population.

The Negro cannot be moved against his will. He has the legal right to live where he pleases. He has the right to move South whenever he can find work elsewhere, but limited economic opportunity is his chief complaint in every part of the country. Even voluntarily he cannot be moved without assurance of a livelihood.

But there are other objections to Mrs. Roosevelt's suggestion. A problem is not solved by transferring it from one part of the country to another. A community in the South will not treat its Negroes better because full of them have been moved to the North. But a Northern community which finds its Negro population doubled will soon build the barriers which are erected against all minorities when they become large enough to compete actively with the majority or threaten its special privileges.

(The Sunday Call is certain as to what can't be done to solve American community problems among minorities. One must regret the Call's lack of imagination and forecast in confronting these problems.)

The Call knows, we suspect, as well as anyone, that harriers are not leveled by pointing to them remotely. They are removed by getting at their foundation; by

Courage

(Editorial from Sunday Call)

Prosecutor Wachenfeld, a dashing statesman, has been asked by Hagge urged approval of the proposed new Constitution at the referendum in November.

Wachenfeld's labors in defiance of Mayor Hague, is evidence of his courage and integrity. As practical politician, he is severely, but he has decided that the issue overrides politics and even their personal welfare. He is unfortunate that their independence and intelligence are not possessed by the leaders of organized labor who have come out against the revision, ostensibly because it does not mention rights of labor already possessed, but actually because they are under Hague's domination.

(Does the Sunday Call seriously suggest that the speaker, the labor, organized women, and alert Negro groups to the proposed revised draft of the constitution to make all laborers under Hague domination?)

Surely the Call may commend Wachenfeld and Fox without in any way commending the most public-spirited and progressive people in the State—The Editors.)

CIO and Fight Against Prejudice

The following article is by Carl Sandberg, one of the greatest living American poets. Sandberg is the author of "Abraham Lincoln: The Man," "The basic resistance of 'Abraham Lincoln: The Man,'" standard Lincoln biographies.

By CARL SANDBERG

The most extensive propaganda job in this country at this time, directed against race discrimination and religious prejudice, is to be found in the publications of the Congress of Industrial Organizations.

When the race riots broke out in Detroit last year it was significant that thousands of Negroes, working alone of white men in war plants and factories had no trouble.

This was partly because United Automobile, Aircraft and Agricultural Workers of America has adopted and carried through a policy of cooperation and good will.

A standard pamphlet of the last two years, piled in the organizing work of the CIO. Yes, there are millions of readers, title, "The CIO and the Negro."

Those who want to stress the alliance in the present campaign of the communists and the CIO

in support of Roosevelt would be historically correct, and at no time in the future beared as inaccurate or blundering, if they should point to the basic resistance of Communist Soviet Russia and the American CIO.

Both have adopted the principle that discrimination and exclusion—with emphy, racism, hate and spite between racial groups—bring multiple evil results and work against health, economy and efficiency of organization.

With race hate, any organization can do better than the CIO. It is a local plasterer's union or a huddle of international delegates trying to come out of a sick district in the World War.

Such a thesis underlies a publication named *Amunition*, published by the IJAW and given wide circulation by the Political Action Committee of the CIO.

Those who assess blame on the CIO for this, the more they are fair and equitable, put on the credit side the job it has done in this time of crisis against prejudice.

It is one of the nicest things to look at in the present American

The State We're In

By O. W. "BUTTS" BROWN

SEGREGATION

The Negroes of New Jersey should take immediate steps to stop the proposed separate colored battalion which Adjutant General Bowers plans to set up. This battalion would duplicate the old First Separate Battalion which is now a part of the 372nd Regiment.

The establishment of such a military outfit at this time would not conform with our pattern for full integration of the Negro in every phase of American life. It defeats the purpose for which our boys are now giving their lives on foreign battlefields and would only serve to return us to our pre-war military status.

Every effort must be made to stop the State of New Jersey from sponsoring segregation within its borders. How can we ever hope to break down this vicious practice if our state government is allowed to make these setups without protest?

The Negroes of New Jersey should inform their Assemblymen and Senators that they are opposed to this separate guard and urge them to defeat any legislation designed to create such an organization. As long as we are separated in the military life of this nation we will suffer a similar experience in our civil life.

ELECTION

Negroes are beginning to manifest increased interest in the forthcoming November election which means that the campaign is definitely under way. Both parties seem to be at a loss as to how to handle the Negro vote and, as a result, very little has been done to date to win the colored brother. One thing is certain, the Negro vote is going to come high this year. Negroes have placed too small a premium on their ballot in the past, which accounts for their present deplorable political plight in this state and nation.

The Republican party will have to pay the price to regain power while the Democrats will have to pay the price to retain their position. The Negro vote will be a determining factor in the future of both political groups.

The Negro must receive a fair proportion of the patronage that will go to the victor. We also want the victor to guarantee to us every right and privilege to which we are entitled under the constitution of this state and nation. These are just and fair demands that the party heads must be able and willing to meet or else they will lose the colored vote and most likely the election.

THE TIME IS PAST

The time is past when any individual can assure the bosses he will deliver our vote without making these concessions. No Negro today has a vest pocket large enough to contain all our votes either. The Negroes' intelligence has been sharpened by bitter experience and disappointment and we are weighing men and issues as never before. This means that this campaign will have to be conducted upon a higher and more intelligent plane than in former years.

WHAT IS REQUIRED

This year a candidate will have to offer Negroes a program that will appeal to them. This year the party that gets the colored vote will have to make definite promises upon matters vital to our group welfare. Any party or candidate who thinks the Negro will be satisfied with a pat on the back, some hot dogs and hot drinks, is in for a crushing defeat. The old technique must make a way for a new approach to the colored voter and the speed and effectiveness with which a party can make this transformation will determine its success at the polls in November.

Howard Thurman at San Francisco

Word has come to me that Howard Thurman, dean of the chapel at Howard University, granted leave by university trustees, is now at San Francisco, having taken up his duties as co-pastor of the great new inter-racial church mentioned here some time ago. This is good news, indeed.

I had known for some time that Howard Thurman was seriously considering this project in inter-racial worship. He had talked with me at length on the subject during a weekend of rest and study at the Hotel Theresa. And I had wished he could see his way clear to go to San Francisco for this new and inspiring work.

Man for the Place

For never was a man more fitted to launch this high enterprise of the spirit than Howard Thurman—this black poet of the pulpit, this preacher of the social gospel, this philosopher and celebrant of the human spirit.

Known in hundreds of colleges and universities for his great thinking and speaking, celebrated as counselor in student activities; a Christian if ever there was one in the everyday affairs of life—Howard Thurman is of the finest wheat cultivated in American life. It is good to know him: he is a challenge to the best in us; he is a real flesh-and-blood embodiment of the Christian spirit.

The San Francisco community will be fortunate to have Dr. Thurman. The church will have two pastors, one white and one colored. Dr. Thurman will be able to fill speaking engagements throughout the country just as he did as dean of the chapel at Howard. And this will be good, for no one community should have him to the exclusion of all others.

Practical Religion

The idea behind the inter-racial church is fascinating: it offers a chance for some real practical religion. It certainly is a people, were thinking seriously about the race problem in terms of the churches. The churches, of all places, should offer the opportunity for contact and cultural relations between peoples of various backgrounds and origins. And if the church can't find within itself a practical basis for the good life which, it is anything, is rational and organized with the view to cultivating and sharing the talents and gifts of people, it had best close its doors.

Neither Jew Nor Gentile

Howard Thurman feels that the idea behind the inter-racial church at San Francisco is a fresh challenge to people who say they believe in practical Christianity. Too long has the church been content to follow the ways of the world in matters of race and color; too long has it forgotten its first concern for the whole people: that there is neither Greek nor barbarian, neither Jew nor gentile in the true Christian community.

A Great Value

Dr. Thurman would call the church back to this first concern. And this is a great value. He would remind the church, in Ernest Meyer's words, that "from day to day, in the routine of our lives we are unaware of the dreams that have slipped from us"; and that we have been too willing to "find good and sufficient reasons for not doing the thing we wanted to do so much when we were young." And he is a great reminder. He would celebrate the spirit of Jesus in human relations. And this proud black man is humble enough to celebrate the Jesus of human experiences.

He is prepared, one feels, to strike the sounding cymbals, for his purpose holds "to sail beyond the sunset and the bath of all the western stars" as he seeks to find and know and not to yield in the struggle for a better life and human relationship.

Great Forces

Great forces will work with Howard Thurman as he takes up his new work: great exaltations and aspirations will attend him. One of the world's great preachers (ask anyone who has heard him) is a teller of the Gospel that can and does lift men up onto high places.

NEW HOPE BAPTIST CHURCH
Metuchen.—As though suddenly lifted by a strange spiritual force, the New Hope Baptist Church has plunged forward into a new progressive era. The beginning of this new era was marked by the First Homecoming Service. Morning and afternoon sessions were held.
Morning services were inspired by the singing of the newly reorganized choir. The history of the church was read by Miss Phyllis Thompson and was written by her mother, Mrs. Alice Thompson. Mr. Anderson, mortician of New Brunswick, brought to these present a stirring address in view of the fact that his violin was inadequate for playing. An inspiring message was brought the congregation by the pastor, Rev. I. H. Fisher. The message was very simple and could be understood by all present. It conveyed the coming home to private, church and heavenly home; and the pastor vividly portrayed his childhood home. Many visitors were present at this service and the afternoon service also.

ST. MARK'S A.M.E. CHURCH

Says Roosevelt Personally Suggested That Adam Powell Be Named As Tammany's Harlem Candidate

By EARL BROWN

One day last spring I asked Mayor Roosevelt, Republican national committeeman of Illinois, about the importance of the Negro vote in Chicago. He said: "We fully realize that the Negro vote is the balance of power in any close election in both Chicago and the state. That's why we do all we can to win this vote, and we're going after it this year more than ever before."

Mayor Edward J. Kelly, Democratic boss of Chicago and who, said the same thing. The Negro vote swung the gubernatorial election to the Republicans in Kentucky last fall, and last spring the colored voters played a major part in helping to elect a Republican mayor of Baltimore.

Roosevelt and Colored Vote
President Roosevelt, himself, is reported to be deeply concerned about the way the colored voters will go this year. According to the most reliable information, he personally suggested to Edward V. Loughlin, leader of Tammany Hall, that he designate the Rev.

Isidor M. Gluskin, a Jewish lawyer, as Tammany's Harlem candidate. Adam Powell, well known manager for Congress from New York, is a happy birthday. Say Sara, when will you be wearing that engagement ring? Mrs. Powell's birthday was celebrated last night at the Vaux Hall. (Fine) Grime in the Merchant Marines comes home soon.

Devey Goes All-Out
Governor Devey, Republican Presidential candidate, has decided to make an all-out drive for the Negro vote in the North at the expense (based solely on traditional Republican Tears) of losing any southern or border states. Though this is recognition of the importance of the Negro vote by Devey, it is no indication that he is a champion of the Negro. He only wants Negro votes to help him win the White House.

As anyone can see, all this adds up to one thing: the Republicans and Democrats are going lucky-split after the Negro vote. They are doing this because they sorely need it. They figure they must have it to win. During the campaign they're willing to promise

anything to get it. They're willing to promise anything to get it. They're willing to promise anything to get it.

Vaux Hall
Well folks, here we go again. Let's start off by wishing Elaine Grime a happy birthday. Say Sara, when will you be wearing that engagement ring? Mrs. Powell's birthday was celebrated last night at the Vaux Hall. (Fine) Grime in the Merchant Marines comes home soon.

The Vaux Hall Girls A-C softball club was very successful this year. Say Dolores, how are you and H. making out? You really have a frantic romance there.

colored citizens almost anything for the vote. Though neither party intends to do any more than in can possibly help for them at any time. Whether either one does, depends entirely upon the need for the Negro vote and nothing else. The larger this vote is, the greater the need for it by both Democratic and Republican. It is indeed, the colored man's one great weapon with which to bargain and battle for his rights.

Failure to Register
On the other hand, if Negroes fail to register and vote in this election in large numbers, they will not only foolishly toss away a golden opportunity to get some of the things they need and deserve as citizens, but they will also stand chance of losing some of the gains they have made in the last decade. There is nothing as simple, yet as important, for the Negro people today as to register and vote.

Most Important
As a group the vote of the Negro in Texas, Florida or California, is equally important as the vote of the Negro in New York or Pennsylvania, two uncertain key states. For in this election the colored people must not only vote for the candidates they favor, but also to pile up the biggest total vote they have ever cast.

The most important thing colored Americans can do to help their country and themselves is to register and vote. Do not let your country down by failing to do so, self, your family, your race and to register and vote is your privilege and responsibility.

Cranford

By RITA & ELEANOR WOLTZ

Well, we must say it's swell to be back again writing for the Herald, the latest from Cranford.

If you really want to ball while, take a trip to Atlanta, with all the beautiful colleges, skirts and we dare say, pants, also. Don't get us wrong, we mean you youngsters that are untangled.

Mrs. Emma Love Barnes, her two daughters, Marjorie and Emma, her son, Clarence visited friends in Philadelphia last week end.

Corporal Robert Kemp of Newark is seen in Cranford quite often for very special reason. He is home on furlough.

Miss Mae Frazier left Sunday for her home in Georgia, after a very pleasant stay in our town.

If there's anything you would like to enter in our column, just call Cranford 6-5089-J.

Since a certain telephone call we don't see much of a young gentleman (C.T.) of Roselle. We wonder what the matter is, or can't you play two at a time? Maybe he figures they are more on the ball that he gathered.

Miss Doris Chambers is spending a few weeks in Asbury Park with her relatives.

Miss Eleanor David has returned to Tuskegee Institute after spending the summer visiting her parents.

A Shopper's guide to the Black Market — (in 5 easy lessons)

1 Tires getting a little thin? That's easy. Weep and wail to all your friends about it. Carry on before strangers. And some day a character named Lippy the Lug will slide up to you and offer you all you want. The price will give you heart trouble so you can't drive your car anyway.

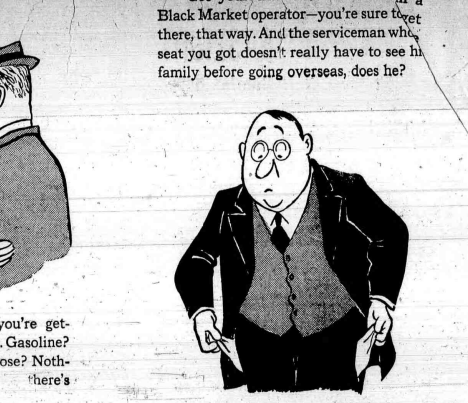

2 Not getting enough red meat? Or maybe butter? Hunt up a Black Market Butcher and pay the price. Why bother with ration points? That OPA stuff is just a lot of political hooey, invented to give people jobs!

3 Like to take a little holiday trip? Get your train reservations from a Black Market operator—you're sure to get there, that way. And the serviceman who seat you got doesn't really have to see his family before going overseas, does he?

4 Congratulations! Now you're getting the idea in great shape. Gasoline? Easy! Shoes? A cinch! Nylon hose? Nothing to it! Why, you'd scarce have a war going on!

5 Of course you may be able to get away with it for a while, but we think we ought to point out that you stand a pretty good chance of:

- a. going broke
- b. getting pinched
- c. getting a good stiff bust in the snoot from some guy who thinks you deserve it. And by the way—don't you?

Or...if you want to help your country out...

Play straight...don't take more than your share of anything!

Thank your stars that America, even under rationing, still offers an abundance of everything you really need—yes, and countless luxuries that exist nowhere else in the world.

And if you still think you're having a tough time...spend five minutes a day reading the casualty lists.

P.S. If you can't get Pabst Blue Ribbon every time you ask for it...remember, we're doing our very best to keep everyone supplied. Until your Pabst dealer's new shipment arrives...ask for some other good beer, won't you?

Matrimonial stew in the brew up in the tranquility of the Oranges: An Orange Valley split up the legal way is being rounded into battle shape with a very outstanding Orange bicuspid mechanic being named as the wolf who worked overtime without time and a half pay. The upset hubby who is clobbered in a huddle with his lawyer was recently discharged from Uncle Sam's fighting forces. One of

the outstanding incidents that occurred to arouse the hubby's suspicions that there was funny business going on was during one of his turloughs home. Of course the doctor of dentistry didn't know that the main bird was home and came barging into the Orange Valley homestead while the weary G. I. was enjoying home after months of military routine.

The only thing wrong: up to then as the story goes, was that it was at 5 a. m. in the morning and he was in a very terry condition. May have had a few nips. At any rate he charged in like a General Sherman tank and beat up his blithering as soon as he recognized a service uniform hanging over the chair and regained his best senses which at once tell him under such circumstances that its time to leave—in a hurry. D. D. has been sleeping moons at the Valley domicile off many a hangover in recent

It happened in Elizabeth, Elizabeth, N. J. is the oldest city in the state, dear pupils, but you may all be excused and go home, while the teacher goes to a meeting for we must discuss Elizabeth further. There stands a dwelling where after midnight many people have been entering and leaving. No one ever sees their faces, for they enter with heads down and make funny faces to make them unrecognizable. The coppers, wondering what it was all about, got snooty and decided one day that they had seen a lot of goings in, but no coming out, blocked all doors and went in. They saw the hidden faces, but they were terribly blushed, and the cops thought for a minute that they were in a nudist cult. Pleadings and such went on as is customary, but the cops are such hard hearted individuals

Wanna Buy A Juice Joint? Subject: Tavern Owners: A lot of insurance collectors are urging their tavern policy holders to increase their premiums, for the mortality rate of these gentlemen is on an equal with Nazi war losses. Now is the time to buy a nice big tavern, they will sell for a song, jack, stock and barrel and all the risks that go with it. Also seen entering the establishment the pitiful few that's left, were bullet proof vest salesmen, several of whom went into retirement when Schultz got rubbed out. The Tavern owners are considering going on an all-out goodwill program. The plan will be, every other drink a free one, cussing will be allowed, when it's time to go home and the customers don't want to go, stay open what the heck, to lose all of its clientele, it's worth it. At least the T. O. will be here to pay it. None can decide just what to do, take on the handling of the feminine side, and are still shaky over circumstances. A few have decided to enter the army, airplanes, machines or anything else where they'll have at least a shooting chance.

Come On Over Wolves Taking place on the 8th of October, Sunday, will probably be one of the most lavish displays of beautiful feminine charm in the ultra in curves, all adorned in the latest of styles of midday's attire. It will be at Harbison's Smokey Paradise, his pulchritudine parade, as Ruby Robinson, Newark's popular modiste and Elizabeth Pegram, also a wielder of the needle, a bunch of bronzed skin oo-la-las herself, swing their fashion show. It will be done quite different they say, with the darling mannequin cavort in sweet pantomime. Back in town for a week-end, swell in his navy uniform, wearing the white officer's cap of Seward 3rd class, Johnny Bell, the niftiest's favorite pianist, formerly at Dodge's Grill. Johnny is working for a musicians rating in this man's navy and expects some results in the near future.

Yes, I've added another year on to those already compiled up, over the past week end, and we sincerely thank each and every one of you for those swell gifts and cards. 'Tis a ruling the G. I.'s come first — so here's a bit of news about our boys. Those soldiers sailors and marines seen home over the past week end were William Jackson, Samuel Hawks and Milton Hayes. In our mailbox came letters from Sergeant Charles Hockaday, somewhere in Italy, who sends his regards to all the boys and girls back home. A letter from Bill Sprull, who is also in Italy, reports that he is fine and hopes to be home again. Comes a letter from Robert Scott, remember him? "Big Time Scottie" is also in Italy. Our surprise letter of the week came from Private Alphonso Lovett, who is now in France, with the rest of the boys. From his conversation he and the boys are bawling, but most anxiously awaiting their return home.

Surprise — Telephone call of the week came when we thought we were talking to a party in Alliance, Nebraska. Funny, it turned out they were right here in the state of New Jersey. Yes, Sergeant William (Windy) Winbush, my cousin. Most surprising introduction of the week was that to Private Candy Carter, third prize winner of the Jitterbug contest. We also saw Private Frank Davis, who is now connected with the M.P. Battalion. Yes, he was carrying a revolver and all the necessary weapons. Also comes a letter from the Pacific from Private First Class Stanley Bryant Jr. From over France we received a letter from Private Joe Lewis. His main question was concerning the nite spot, Zanzibar. We saw home on furlough Pancho Diggs and his wife, Mrs. Moselle Diggs, who returned home after spending a lovely vacation with hubby.

SEEN AROUND TOWN: — Loretta Thorne, sporting a fine coquet hat, Barbara Hudson in trench coat and clothe hat. Those hats are the newest sensation. Edna Fryer is going well in her new role as glamour girl. What say Dot, are you going to 'tamourize'? Clarence Beakerville, the smooth character around town. We'd believe what people tell us if we were you. Say, that's a nice hat the girls are wearing. N. U. whistle when a smoothie goes by? Not Ask Mattie Rose Carroll to show it to you.

War nerves seem to be everyone's trouble. When it comes to the manpower shortage it troubles some. Walking into one of the nite spots we found two young ladies desparing over one poor man. Yes, he was a free man, and one of the young ladies was left holding the bag. Walked into another spot and a repeat performance was given. Oh, this manpower shortage is only a killer. Congrats to one of Newark's leading beauticians who has taken unto himself a wife. The parties at this time, I leave their names unrevealed.

Kirby and Scott At The Apollo
John Kirby and his big little band and Cecil Scott and his orchestra will appear together on the stage of the 125th Street Apollo Theatre for the week beginning Friday, Flournoy Miller and John Lee new comedy team of old favorites will head the supporting revue cast. Grays Phoney Claim For Second Half Title Exposed

By BUTTS BROWN

Negro baseball circles were startled this week to learn that according to the schedule drawn up by the owners of the Negro National League for the second half, the Homestead Grays and Cuban Stars which were playing in Detroit Labor Day was on that schedule. The games were originally booked to be played at Griffith Stadium, Washington.

The Cuban Stars won both games by scores of 4-3 and 5-3. Cum Posey only reported one game as a league game and claimed the second tilt was an exhibition game. As a result the final standings for the second half as re-

Philadelphia	15 7 682

These standings show the Grays the winner of the second half but if the second game goes down as a league game as it was originally scheduled, then the results would show the Philly Stars the winner for the standings would then show:

Philadelphia	W L Pct.
Philadelphia	15 7 682
Grays	12 6 666

It was learned this week that Ed Golden sent out letters to the other owners protesting the action of Posey in declaring the second game of the Grays-Cubans Labor Day game an "exhibition." Despite this protest President Tom Wilson approved an agreement between the Grays and the Birmingham Black Barons for the coming world series between these two clubs on last Friday. This agreement was drawn up in Pittsburgh last week and then submitted to the presidents of both leagues for approval.

The agreement met with hearty and enthusiastic approval from the league heads. President Martin hailing it as "the finest thing that has happened in Negro baseball," while Tom Wilson labeled it "one of the greatest contributions toward the advancement of Negro baseball."

While the league presidents and the owners of the two competing teams were trying to impress the public with their sincerity, Golden was frantically trying to get a hearing for his claims for the second half championship.

Golden has a sound and logical claim for the title. It is a known fact that Posey never advertised

Eagles, Cubans, Atlanta Play At Polo Grounds Sun.

Another below the Mason-Dixie line team makes a Metropolitan appearance at the Polo Grounds, New York City, this Sunday, September 17th, when the famous Atlanta Black Crackers of Atlanta, Ga., meet the New York Cubans in the opening game of their three team Doubleheader scheduled for Sunday afternoon.

The Atlanta Black Crackers from down Georgia way, have one of the most powerful teams to come out of Southland, and in their only appearance here at the Yankee Stadium earlier in the season, split a doubleheader with the Black Yankees, when with their ace, "Bobby" King on the mound, shut the New Yorkers out incidentally, while on that subbing, King gave one of the greatest mound performances of the season that, limiting his opponents to one hit, retiring in order the first nineteen men to face him, striking out nine and then blasting a 400 foot homer into the left field stands as an added personal contribution.

Other outstanding Southland favorites in the Crackers' lineup are: "Babe" Jackson, flashy fielding shortstop; "Jackie" Brennan, hard-hitting second-sacker; "Early Bird" Ellison, peppery, diminutive catcher; "Jackie" Oliver, hot corner guard; "Big" Manning, stellar first sacker; "Freddie" Sheppard, and "Left" Hooker, fast gardeners; and a pitching corps, second to none, consisting of "Hammond" Sims, "Slick" Coleman, Bill Sadler, and "Slim" Conston, beside the above-mentioned King.

For the return Newark-Cuban game, little can be added to what has been previously said; sufficient is the fact that McDuffee, smarting under the stigma of being driven from the box by the Latins who went back for revenge, backed by Dandridge, Pearson, Watkins, Davis, and a hard game, Moss and Callaway, and company. Nuff said.

Eagles Take Two From Atlanta

The Newark Eagles easily won both ends of a doubleheader from the Atlanta Black Crackers, Sunday afternoon at Rupert Stadium, by scores of 14 - and 9 - while Willie Wynn with two doubles and a home run sparked the Eagles' fifteen hit offensive in the first game. The second game was cleaned up by Braithwaite in the sixth inning with the bases loaded.

Left Hooker hurled this game for the Eagles and though touched for ten hits managed to keep them well scattered and coasted to victory.

Donald Newcomb of Elizabeth was the pitcher in the nightcap and held the Crackers to five hits in a game in which he had two fine performances of the year.

Len Pearson with a home run and Bob Weaver with two doubles were the batting stars of this game for Newark.

Manager Mule Suttles was honored by the Newark Eagles Boosters Club under the leadership of Mr. Lester P. Foster of East Orange who presented him with a \$50 War Bond.

Eagles' Players To Be Feted

The Newark Eagles baseball team will be feted Friday night at the 3rd Ward Republican Club, 61 Monmouth Street, Newark. The affair is being arranged by Mr. Reginald Simpson, manager of the club, and will be attended by a number of outstanding sporting figures of the East.

Oliver Brown, director of Social Recreation for the City of Newark, will serve as toastmaster for the occasion and efforts are being made through Charles Jenkins, trainer for the famous Bushwicks team, to have Lefty Gomez as the principal speaker.

Aggies Prep For Tough Grid Tilt

Gearing the A. and T. College Aggies for one of the toughest grid schedules in their history with the opening game set for Saturday, September 30, against the strong Winston-Salem Teachers College eleven in the Memorial stadium, is the problem for the Aggies' new mentor, Brennan L. Kim.

Early fall practice began Tuesday, September 5, with sixteen men reporting for the first workout. Since this time candidates have been taken through hard and strenuous drills. "With the fine cooperation that the team is receiving from the administration, alumnae, and friends, and with the return of many outstanding players and plenty of new material, it will be my aim," said Head Coach King today, "in fitting with associate coach, Karl Keyes, and assistant, Willis Powell, to turn out a team which will perpetuate the fighting spirit of Lt. Sam Bruce, one of A. and T.'s greatest athletes, who lost his life in Italy as a member of the 8888th Central Postal Directory."

Hold Net Tourney At East Orange

The first annual tennis tournament was held last week at the East Orange Community Tennis Club where spectators saw the best players compete for the championship in four games of doubles.

In the first game Lloyd Callaway and Eugene Moss Jr., who have played in matches continuing throughout the season was a hard game, Moss and Callaway, both good players but who waived the game to Moss and Callaway.

In the semi final match George Smith and William Banks battled it out with Moss and Callaway won the game by a close margin. W. Banks and G. Smith are two very outstanding players and always give their opponents a tough game.

The third game Gordon Peniston and D. Dunn Jr., vs. L. Callaway and E. Moss Jr., to determine the player in the final match. The final match was played between E. Moss Jr., L. Callaway and D. Nicholas, G. Smith. After a hard game, Moss and Callaway were proclaimed champions for the season. The winners were presented with a set of engraved tennis balls, a trophy of kisses and many congratulations.

A MUDDLE

The President of the Negro National League must be feeling very embarrassed upon learning that the Philadelphia Stars were the actual winners of the second half which ended Labor Day. The double defeat suffered by the Homestead Grays at the hands of the Cuban Stars in Detroit on that day gave the championship to the Philly Stars.

Despite the fact that these two games were listed in the second half schedule and were league games—why—Cum—Posey—now claims that only one game was a league game and the other was an exhibition game.

It is time for Tom Wilson to be the President of the league and step down and let someone else function. The Grays have completed arrangements for the world series with the Birmingham Black Barons and in reality they didn't win either half.

In the first place Tom Wilson should have forfeited the game between the Newark Eagles and Homestead Grays in which the Grays scored an ineligible player at Newark. Instead, he ordered the game replayed and the Grays won.

He should have insisted upon the Grays and Cubans playing their Labor Day doubleheader according to the league schedule and not permit Cum Posey to schedule games to his convenience.

This present proceeding shows the pressing need for a Commissioner who will rule with an iron hand. The public has supported organized Negro baseball in a most commendable way this year and are certainly entitled to better treatment than they are receiving.

It has been my contention for a long time that our clubs should not be allowed to play exhibition games between each other. Every time they meet it should be in a regularly scheduled league game. This is the only fair way to treat the public and keep their confidence in colored baseball.

If the owners insist on running the league in the aliphad manner they have in the past, they are rapidly killing the goose that laid

the golden egg, namely, the colored baseball public.

Stop Posey.

Cum Posey should be curbed in his unscrupulous manipulations. Posey has proven himself to be ineligible in his claims that he wants things run on the up and up. He wants things run for the benefit of the club and to hell with the other clubs and the public.

Such a man is dangerous and will eventually wreck anything he has any control over. Posey has done a great job in putting his Homestead Grays upon a paying basis. In this, he has proven himself to be a smart business man who knows his baseball and how to operate a club. But in doing this, Posey has been guided by only one idea, and that is to make money, regardless of whom it hurts. Such an attitude by a person as powerful in Negro baseball as Posey will surely prove ruinous to the league. That is why Tom Wilson must function or else give up the ghost.

Posey has opposed the election of a Commissioner for a number of years; Posey has played ball with Gottlieb in leading the fight to see that Gottlieb got 10 per cent of the top for Yankee Stadium promotions; Posey has flouted the rules of the league whenever it was to his advantage to do so; Posey has split with Saperstein only because Saperstein secured certain parks in the West which he formerly controlled; Posey doesn't care about how Saperstein treats the other clubs so long as he doesn't bother Posey. Posey is a menace to Negro baseball and should be curbed before he kills the game. To permit him to operate in his high handed manner is suicidal.
